EKT & Open Access

BYZANTINA SYMMEIKTA is published using EKT's service for scientific e-publications.

The National Documentation Centre follows international developments in open access and leads significant initiatives in Greece.

The aim is to reinforce national research infrastructures and to establish an environment of free access to scientific and cultural content.

The National Documentation Centre develops Open Access infrastructures, based on open-source software:

- * **Helios – National Hellenic Research Foundation Repository**
- * **Humanities and Health Sciences Thematic Repositories**
- * **National PhD Theses Database Repository**
- * **Scientific Journals**

BYZANTINA ΣΥΜΜΕΙΚΤΑ

BYZANTINA SYMMEIKTA

BYZANTINA SYMMEIKTA is an international, peer-reviewed, open access electronic journal on Byzantine Studies. It is published by the National Documentation Centre in association with the Institute of Byzantine Research/NHRF. The e-publication is part of the project "National Information System for Research and Technology – Phase III" and is the evolution of the SYMMEIKTA journal, which has been published since 1966.

"The new scientific practices and the latest developments in the publishing of research have led us to re-evaluate the aims of ΣΥΜΜΕΙΚΤΑ. In its new form as a peer-reviewed open access journal with well-defined processes and scope, BYZANTINA SYMMEIKTA maintains high publication standards while taking advantage of the possibilities offered by new technologies".

*Professor Taxiarchis G. Koliass
Director of Institute for Byzantine Research*
